Magnetic Insect Screens

Product Overview

Magnetic Insect screens are economical and provide a very practical solution for keeping out those unwanted flies and insects.

One of the most important features of our Magnetic Insect Screens is the superior quality of the Phiferglass Pool & Patio Mesh. This high quality screen is a woven polyester fabric providing an unobstructed clear view. If required, block-out and sunscreen fabrics can be substituted for Insect screen. This can be a perfect alternative particularly for irregular shaped windows and or, for windows in out-of-reach places. Where space is limited and privacy is required such as a glass exterior door, a magnetic screen with a block out fabric can be a better option to a conventional roller or venetian blind.

Once the magnetic frame is attached to the window, it is very easy to remove and refit the screen simply by lifting the corner. We recommend regular dusting and if necessary marks may be removed with gentle cleaning using mild detergent and a damp cloth

Technical Data

Frames and Corners

Magnetic Insect Screens are made with durable 14mm wide PVC frames, strong magnets and special 40mm x 40mm 'easy lift' corners. The frames and 'easy lift' corners are available in a choice of five colours: Brown, Cream, Grey, Black, White.

Fabrics

Insect Screen

Phiferglass Pool & Patio Mesh
